Senate Bill 187: Comprehensive School Safety Plan Purpose

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at Golden Oak Community School Office.

The safety of the staff and students is a priority at Golden Oak Community School. The following indicates elements that are going well at the site:

- Office referrals are minimal, so student discipline is not an area of concern.
- Evacuation, earthquake, and lockdown drills are conducted once per month.
- The ingress and egress procedures at the site are efficient.
- The Sheriff's Department conducts a security inspection of the campus.
- The Principal addresses behavior and dress code with students via an informational video specific to Golden Oak, visiting each classroom individually to answer questions that arise as well as morning announcements as needed.
- Classroom and classroom building doors are locked at all times.
- The building doors to the computer lab, library, staff rooms, and office are locked at all times.
- The front office has an efficient system for anyone picking up a student during the school day.
- The volunteer process has an efficient system for anyone volunteering on campus.
- The Emergency Plan for the school has teams of 3 to create a safer environment for the site search and rescue teams. Staff is appropriately placed on the Emergency Plan based on personal preference.
- Efficient methods to quickly secure the entire site for an immediate lockdown

The following items require improvement at the site:

- A clear method to communicate from one to another throughout the school day (when not inside of the classroom) and in cases of emergency.
- The Risk Management Department from the District conducted a Safety Inspection.
- All lines should be sure to not intersect on the yard while going to final safety destination.
- The Custodian, the Director of Maintenance, and the Principal conduct a monthly safety inspection and submit reports to the District Office.
- Promote and reinforce positive behavior by all students in the cafeteria during lunch time.
- Any safety issues are reported by staff to administration as they are noticed.
- A one page emergency reminder page provided to subs by the office each time that they substitute at Golden Oak to reinforce safety procedures and schedules.
- Utilizing multiple doors for exiting to minimize congestion in the hallways.

Strategies and Programs to Provide and Maintain a High Level of Safety (EC 32281(a)1, items A-J)

As stated in the Board Policy 5141.4 “The Board recognizes that child abuse has severe consequences and that the district has a responsibility to protect students by facilitating the prompt reporting of known and suspected incidents of child abuse.”

AR 5141.4 Child Abuse Prevention Reporting Procedures:

1. Initial Telephone Report

Immediately or as soon as practicable after knowing or observing suspected child abuse or neglect, a mandated reporter shall make an initial report by telephone to any police department (excluding a school district police/security department), sheriff's department, county probation department if designated by the county to receive such reports, or county welfare department. (Penal Code 11165.9, 11166)

Department of Child and Family Services: 1-800-540-4000

When the initial telephone report is made, the mandated reporter shall note the name of the official contacted, the date and time contacted, and any instructions or advice received.

2. Written Report

Within 36 hours of knowing or observing the information concerning the incident, the mandated reporter shall then prepare and either send, fax, or electronically submit to the appropriate agency a written follow-up report, which includes a completed Department of Justice form (SS 8572). (Penal Code 11166, 11168)

The Department of Justice form may be obtained from the district office or other appropriate agencies, such as the county probation or welfare department or the police or sheriff's department.

Reports of suspected child abuse or neglect shall include, if known: (Penal Code 11167)

- a. The name, business address, and telephone number of the person making the report and the capacity that makes the person a mandated reporter
- b. The child's name and address, present location, and, where applicable, school, grade, and class

- d. The name, address, telephone number, and other relevant personal information about the person who might have abused or neglected the child
- e. The information that gave rise to the reasonable suspicion of child abuse or neglect and the source(s) of that information

The mandated reporter shall make a report even if some of this information is not known or is uncertain to him/her. (Penal Code 11167)

The principal so notified shall provide the mandated reporter with any assistance necessary to ensure that reporting procedures are carried out in accordance with law, Board policy, and administrative regulation. At the mandated reporter's request, the principal may assist in completing and filing the necessary forms.

A mandated reporter who reports a known or suspected instance of child abuse or neglect shall not be held civilly or criminally liable for making a report and this immunity shall apply even if the mandated reporter acquired the knowledge or reasonable suspicion of child abuse or neglect outside of his/her professional capacity or outside the scope of his/her employment. Any other person making a report shall not incur civil or criminal liability unless it can be proven that he/she knowingly made a false report or made a report with reckless disregard of the truth or falsity of the report. (B) Disaster Procedures (EC 35295-35297; GC 8607 and 3100)

Disaster Plan (See Appendix C-F)

Disaster Plan:

GENERAL: The dismissal of students from the school shall be governed by the emergency procedures outlined in this procedure guide and consistent with the Initial Response System. However, this policy does not preclude the exercise of professional judgment by an administrator when the circumstances of the situation indicate dismissal to be in the best interest of the student.

Mass panic can be one of the greatest dangers to students. Staff members should remember that in times of stress, students will look for leadership to those who are normally in an authoritative position. REMAIN CALM, size up the situation and take action based on known facts and plans.

Each teacher **MUST KEEP THE REGISTER OR ENROLLMENT SHEET OF PUPILS READILY AVAILABLE AT ALL TIMES.** The teacher will remain with students until directed otherwise.

A well-prepared and tested plan for prompt and positive protection minimizes injuries and loss of life in a major disaster. In the absence of orders from the superintendent, each school principal is authorized and directed to implement plans as described herein or take such other action as may be necessary to save lives and mitigate the effects of disasters.

During an emergency period or condition created by disaster occurrence students may only be released to parent, guardian or other adult specified on the Emergency Data Card. **THERE SHALL BE NO EXCEPTIONS TO THIS POLICY.**

Emergency Announcements will be provided on the following radio stations: KHTS AM 1220

Public Agency Use of School Buildings for Emergency Shelters

Procedures are in place to allow a public agency, including the American Red Cross, to use school buildings, grounds, and equipment for mass care and welfare shelters during disasters or other emergencies affecting the public health and welfare. The district or county office shall cooperate with the public agency in furnishing and maintaining the services as the district or county office may deem necessary to meet the needs of the community.

- Students not participating in after school activities are to leave campus immediately by walking or being picked up by an authorized person.
- Students waiting for rides home via automobile need to wait in the designated pickup area located in front of the school.
- Supervision of students not participating in after school activities ends at 2:45 p.m. on the playground (students are monitored at designated pick up locations)
- Students who fail to adhere to this rule will be subject to disciplinary action.
- Routines and procedures are established for the arrival and dismissal of students.
- For Transitional Kindergarten and Kindergarten dismissal, the procedures include the students being dismissed to parents present at the kindergarten gate at 2:40p.m., with the remaining students walking to the valet line to be supervised by a teacher.
- Students who attend after-school programs off campus will be dismissed at 2:40 p.m. to get on the appropriate transportation services (day care bus or van)

- After school teachers will supervise the afternoon valet line for safe student dismissal, all students not picked up during valet will be brought to the office for pick up (and signed out)

CLOSED CAMPUS: All gates are locked, with the exception of the main gate with access to the front office. All visitors to the campus must come through the office to sign in with a valid form of identification and obtain a visitor's badge which they must wear for the duration of the time they are on campus. Additionally, all volunteers on campus must attend a volunteer training each school year prior to volunteering.

Students may leave campus during school hours if parents, guardians, or persons designated by parents or guardians come to pick them up from school. A written request from a parent or guardian must be submitted by the parent/guardian if someone other than the parent or someone on the emergency card is going to pick up a child. Persons picking up students during the school day must sign the student out in the front office. They must be at least 18 years of age and provide a valid ID. Under no circumstances should a student leave campus without permission.

Incident Command Team Responsibilities

Standardized Emergency Response Management System Overview

The California Standardized Emergency Management System (SEMS) is designed to centralize and coordinate emergency response through the use of standardized terminology and processes. This greatly facilitates the flow of information and resources among the agencies participating in response to an emergency. SEMS consists of five functions:

Management

During an emergency, the Incident Commander directs response actions from a designated Command Post. To effectively do this, the Incident Commander must constantly assess the situation, and develop and implement appropriate strategies. The Incident Commander must be familiar with the available resources, accurately document all response actions, and effectively communicate response strategies to others participating in the response. This function is typically filled by the school principal. The principal is assisted in carrying out this function by a Public Information & Liaison Officer and Safety Officer.

Planning & Intelligence

Planning and Intelligence involves the use of various methods to efficiently gather information, weigh and document the information for significance, and actively assess the status of the emergency. This understanding and knowledge about the situation at hand is vital to the effective management of a response. These activities are performed by a single person who reports directly to the Incident Commander.

Operations

All response actions are implemented under by Operations. This includes staff performing first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students.

Logistics

Logistics supports the response by coordinating personnel; assembling and deploying volunteers; providing supplies, equipment, and services; and facilitating communications among emergency responders.

Finance & Administration

Finance & Administration involves the purchasing of all necessary materials, tracking financial records, timekeeping for emergency responders, and recovering school records following an emergency. These activities are performed by a single person who reports directly to the Incident Commander.

Emergency Response Guidelines

Step One: Identify the Type of Emergency

It is important to note that school administrators are responsible for the health and safety of students and staff during an emergency. Although the following procedures refer to specific actions, school administrators must exercise discretion in implementing standardized procedures and should consider modifications as necessary to ensure the health and safety of all personnel during an emergency.

These might include: Earthquake, Hazardous materials, Flooding, Fire, Dam Failure, Transportation Incident (Air, Train, Truck), School Violence, Terrorism, Tsunami, and Public Health Emergency.

Step Two: Identify the Level of Emergency

Sulphur Springs Union emergency response and recovery operations will be managed in one of three modes, depending on the magnitude of the emergency/disaster.

*Level 1 is a minor incident that is quickly resolved and internal resources or limited help. The District will maintain normal staffing and reporting protocols. At this operational level, the environment is monitored for changes.

*Level 2 is a more significant emergency that impacts district buildings and or school sites. For level 2 the Emergency Operations Plan (EOP) is activated. The Emergency Operations Center (EOC) will be activated but only those functions that are needed to coordinate and support emergency operations will be activated. The EOC Director will determine the magnitude of the emergency and coordinate its resolution or, if the emergency continues to develop, a Level 3 response will be activated. Other key staff may be alerted, depending on the nature of the emergency.

*Level 3 is a disaster that involves the entire District, school sites and the surrounding community. At Level 3, the EOP is activated, and the entire District Emergency management organization is activated.

Step Three: Determine the Immediate Response Action

The staff and students response to any emergency/disaster is based on an understanding of the nature of the emergency/disaster, the potential hazards, the likely response services and knowledge of what individuals and groups should do to increase their chances of survival and recovery. Immediate action responses may include: Drop cover and hold, Shelter in place, Lock down, Campus Evacuation, Off Campus Evacuation, and/or All Clear.

Step Four: Communicate the Appropriate Response Action

Based on the Emergency, we would activate members of the Emergency Incident Command System. Pending level of Emergency communication locally is reported to parents by the Connect Ed telephone system. Significant Emergencies are then reported by the District.

Types of Emergencies & Specific Procedures

Aircraft Crash

1. Call 911 to report the crash. Designate whether private or commercial.
2. Notify the District Office.
3. Establish a Command Post and activate the Incident Command System.
4. Determine if any staff or students are in immediate danger. If necessary, evacuate to a safe area. All others are to remain at their assigned locations.
5. Render first aid as necessary.
6. Take roll and report results to the principal.
7. Assist emergency responders and coordinate activities accordingly.
8. Once civil/military responders have taken charge of the accident area, coordinate the release of students (if necessary) with the District Office.

Animal Disturbance

The children, staff and community members will be moved to a safe area when an animal is present, near, or on campus.

If possible, the campus custodian may assist in securing the animal from harming itself or others.

The animal may be confined to a secured area until it is removed from the campus by animal control.

Armed Assault on Campus

1. Call 911
2. Institute Lockdown - Hard lockdown procedures and shelter in place
3. Remain on Lockdown until "All Clear" is instituted by the Sheriff's Department.

Biological or Chemical Release

1. If you are notified of potentially hazardous release or accident, notify the Superintendent immediately.
2. Render first aid as necessary.
3. Establish a Command Post and implement the Incident Command System.
4. The decision to evacuate the site will be made by the Superintendent based on the recommendations of the principal and/or by competent civil authority.
5. If an evacuation order is imminent, move students and staff to a designated evacuation/shelter area. If evacuation is not imminent, students and staff should remain in classrooms or in assigned areas.
6. Until ordered to evacuate, assume that a "shelter-in-place strategy" will be employed and do the following:
 - A) Direct all students and staff to remain indoors.
 - B) Direct all heating and ventilation systems to be shut down.
 - C) Direct that all windows be closed.

Bomb Threat/ Threat Of violence

1. The receiving person should attempt to keep the caller on the line and complete the form entitled "Bomb Threat Report."
2. Contact the Sheriff's Department and the District Office.
3. Establish a command post.
4. If appropriate, send staff a written message to search their own classroom.
5. If deemed necessary, evacuate. Determine if you will evacuate prior to conducting a search.
6. DO NOT use radios or cellular telephones.
7. An organized search of the campus should be conducted under the direction of the principal or law enforcement agencies.
8. Activate the Incident Command System; Hazard Control Unit.
9. In the event that a suspicious object is located, all personnel should be kept clear of the area until law enforcement agencies have evaluated the conditions.
10. Return to your normal routine only when the principal and the law enforcement agencies are confident that any threat has passed.

Bus Disaster

The following procedures are for use by bus drivers and appropriate school administrators in the event of an earthquake, serious bus accident, or other emergency that occurs while students are on a field trip or being transported to or from school.

This section addresses two possible scenarios involving a bus disaster:

- (1) an earthquake and
- (2) a serious accident or bus fire. It is important to note that drivers may need to make spontaneous, independent decisions based on the nature of the emergency, age of the children, location of the bus, and other unique circumstances to ensure children's safety.

Procedure Scenario 1 – Earthquake

1. Upon first indication of an earthquake, the bus driver should issue Drop, Cover, and Hold procedures to all students on the bus.
2. The bus should be moved away from all power lines, bridges, overpasses, possible landslide conditions, overhanging trees, or other dangerous situations.
3. The bus driver should set the emergency brake, turn off the ignition, and wait for the shaking to stop.
4. The bus driver should check students for any injuries and provide first aid, as appropriate.
5. In the event the bus is disabled, the driver and students should stay in place until help arrives.
6. The bus driver should contact the School Administrator and the District Transportation Manager to report the location and condition of students on the bus.
7. The School Administrator will determine what additional appropriate notifications should be made and will brief the District Superintendent on the situation.
8. If the bus driver is instructed to resume the bus route, the driver should continue to pick students up. Students should only be dropped off if a responsible adult is at the bus stop.
9. If it is impossible to return to school, the bus driver should contact the School Administrator and remain with the children until further instructions are received.
10. The bus driver is responsible for all students who board the bus throughout the emergency.

Scenario 2 – Serious Accident or Bus Fire

1. The bus driver will park the bus in a safe location with the emergency brake set and the ignition off.
2. In the event of a fire, students and the driver should evacuate the bus immediately and move to a safe location away from the bus and traffic using available barricades (e.g., trees, cars) when available.
3. The bus driver will immediately call 9-1-1 and provide the exact location of the bus and wait for the arrival of emergency response personnel.
4. The bus driver should check students for injuries and provide appropriate first aid.
5. The bus driver should call the School Administrator and the District Transportation Director (refer to the Essential Contacts in the Appendices of this Plan) to report the location and condition of students.
6. The School Administrator will determine what additional appropriate notifications should be made and will brief the District Superintendent on the situation.
7. The bus driver is responsible for accounting for all students throughout the emergency.

Disorderly Conduct

1. Consult with the Sheriff Department and the District to coordinate appropriate protection.
2. Establish a Command Post and an Incident Command System. Notify the Superintendent.
3. Inform teachers and staff of the emergency situation. Initiate a “Hard Lockdown” if required.
4. Do not release staff or students without authorization.
5. Screen all persons entering campus. A government issued picture ID (IE: drivers license) will be required.
6. All students and staff are to remain in their respective classrooms and work areas.
7. Lock all doors and windows and close all window blinds or curtains.
8. Avoid window areas.
9. When the emergency is over, signal all clear.

Earthquake

A. INSIDE SCHOOL BUILDING:

1. The teacher, or staff member in authority, will implement action, “DUCK – COVER AND HOLD.” Stay inside building until the shaking stops.
2. Try to avoid glass and falling objects, areas where there are large panels of glass and/or heavy suspended light fixtures.
3. Do not use telephones.
4. Implement action, “LEAVE BUILDING”, when instructed to do so, after the earthquake is over and tremors have subsided. Special consideration should be given to exit routes as some exits have heavy roof structures over the doorways. Go to an open area away from trees, power poles, etc.
5. Avoid touching electrical wires and metal objects such as chain link fences.
6. Render first aid if necessary.
7. Take roll and report missing students to principal.
8. The principal/designee is to establish a command post, assess

damage, activate search team and activate the incident command system.

9. Activate a buddy system; determine needs of neighboring schools. 10. Principal to request assistance through school district channels.

11. Notify the District Emergency Operations Center of any breaks in utility lines.

12. The superintendent/designee will determine the advisability of closing the school, based on the report of the principal.

B. IF OUTSIDE:

1. Move away from buildings, playground equipment, utility poles, signs, trees, metal fences, exposed wires and wet areas.

2. The safest place is in the open. Stay there until the earthquake is over.

3. Follow procedures 5 through 12 under "Inside School Building."

C. WALKING TO AND FROM SCHOOL:

1. The safest place is in the open. Stay there.

2. Move away from buildings, utility poles, signs, trees, metal fences and exposed wires.

3. DO NOT RUN! Do "DROP – TAKE COVER."

4. After an earthquake, if on your way TO school, continue to school.

5. After an earthquake, if on your way FROM school, continue home.

D. ON SCHOOL BUS:

1. If possible, the bus driver will pull to the side of the road away from any buildings, poles, and large trees issue command "DROP – TAKE COVER."

2. Turn off ignition and set brakes.

3. Wait until the earthquake is over.

4. If possible, contact dispatch office by radio for instructions.

E. HANDICAPPED STUDENTS:

1. Students with handicap conditions may need special assistance and instruction regarding falling debris. Additional drills may be needed to make certain the procedures are mastered.

2. Each handicapped student's needs should be assessed in relation to the possibility of a disaster and his/her preparedness.

Explosion or Risk Of Explosion
