PRESENTS

PARENTING IN THE DIGITAL AGE

GUEST SPEAKER TOM KERSTING

We see it everywhere - kids connected to handheld devices and disconnected from the world around them. According to the latest research, the average thirteen-year-old spends eight hours per day, seven days a week glued to a screen. Yes this is problematic, but for every problem, there is a solution.

ORADOR INVITADO TOM KERSTING

EDUCANDO A LOS PADRES EN UN MUNDO DIGITAL

Lo vemos en todas partes - los jóvenes que están conectados a los aparatos electrónicos y desconectados del mundo que les rodea. Según los últimos análisis, el joven medio de trece años pasa ocho horas al día, siete días a la semana, pegado a una pantalla. Sin duda, esto es un problema, pero cada problema tiene una solución.
