

Friday Update May 15, 2020

Good Evening Sulphur Springs Families,

This is Dr. Catherine Kawaguchi, Superintendent, with your Friday Update, May 15, 2020.

I want to express my appreciation to our teachers, Principals, and support staff who worked really hard to make sure that your child's personal items were ready for pick-up this past week. If you were unable to pick-up your child's items this week, another time will be scheduled for families to pick-up their child's belongings. Your child's Principal will send out a message as to when the new pick-up time and date will be.

Please note that families that have children in the State Preschool Program at Mint, Leona Cox, and Canyon Springs Community Schools will have their own deployment of student items on Friday, May 22nd. Mary Mercogliano, Director of the State Preschool Program, will be sending out additional information to these families.

I wanted to also share with you that the District is forming a Task Force of stakeholders to discuss the re-opening of our schools in August. The Task Force will ensure that all discussions will be focused on the health and well-being of students and staff. In addition, the Task Force will be discussing a variety of instructional delivery models in case schools are only permitted to open under certain conditions as directed by LA County Department of Public Health. We are currently working on a survey for families to get your feedback on distance learning so we can continue to adjust to meet your child's needs in this environment. The District will continue to provide families additional updates regarding the Task Force and its recommendations to prepare for the re-opening of our schools in the fall.

Thank you, families for remembering to wear masks when coming to pick up the free nutritional food at Canyon Springs and/or Mitchell Community Schools between 12:00PM and 1:00PM. We so appreciate your support with working to continue to protect our staff as well as our families.

Wishing you a wonderful weekend. Thank you.
