As a reminder, you should have received an email from Peachjar, which is a company that is supporting our District with making sure that flyers from outside communities advertising their activities are still being able to be sent home electronically. All of the flyers being digitally sent home have been approved by my office. You will be able to view the flyers through email by clicking on the Peachjar button.

As we come to the end of the first trimester, we will be sending out a survey to all families regarding their desire to stay in their current program Learning@Home or AM/PM or request a program change when we are able to make adjustments. We will then use that information to adjust, where possible, when Los Angeles County Department of Public Health allows for more programs to provide in-person learning. This survey will be sent out to all families with another message by Wednesday of next week.

Yesterday, a message was sent out informing parents about the CLASS Sulphur Springs Foundation's \$20 for 2020 Fundraising campaign. Please know this message was sent to families to inform you of the Foundation's goals and current fundraising efforts. We encourage families to share the information with

businesses and members of the community as the intent of the fundraising for CLASS is through business and community donations. We greatly appreciate our families continuing to support their school's PTA.

Wishing everyone a wonderful weekend. Thank you.
