

Golden Oak Community

The School Accountability Report Card (SARC), which is required by law to be published annually, contains information about the condition and performance of each California public school. More information about SARC requirements is available on the SARC Web page at www.cde.ca.gov/ta/ac/sa/. For additional information about the school, parents and community members should contact the school principal or the district office.

Principal's Message (2009-10 School Year)

This section provides information about the school, its programs and its goals.

Opening its doors in August of 2008, Golden Oak Community School is the newest addition to the Sulphur Springs Union School District. Nestled in what will be the Golden Valley development, Golden Oak is the result of a partnership with developer, Pardee Homes, and the District. Golden Oak was built to house 500 students with a current enrollment of 470 students who were pulled from Fair Oaks Ranch and Valley View Community Schools. Our typical student comes from a single family home. Less than 10% of the student population participates in the Free & Reduced Lunch Program. Approximately, 12% of our students have a first language that is other than English.

Golden Oak is proud of the state of the art technology present in all classrooms which includes the Computer and Science Labs. Each class is a "Smart Classroom" which includes an interactive white board called a Smart Board, digital doc camera and a sound enhancement system. All of this allows for instance access and information through the internet and keeps students actively engaged to learning.

In 2010, Golden Oak made history by being the first school is our District to achieve an Academic Performance Index score of 903. We contribute this success to following a Professional Learning Community model. Our vision and mission is to deliver a challenging curriculum that is based on the California State Standards. Instruction is guided by grade level common assessments identifying the current level of student learning. Grade level teachers collaboratively plan lessons to meet the individual student needs. Effective use

of a wide range of teaching strategies and a variety of high quality, readily available materials and highly qualified teachers bring the curriculum to life.

Currently, there are 19 regular education teachers of Kindergarten through Sixth Grades. Student learning is supported by a 40% Speech and Language Specialist, a 50% Resource Specialist Program Teacher, and a 20% School Psychologist. Classified employees include a full time Librarian, a Computer Lab Specialist and a Reading Aide.

To provide a strong foundation to our youngest students, Golden Oak School provides a Full Day Kindergarten Program. The Kindergarten class size is 22 students. This program was first piloted here and when found to be highly successful, it was adopted by all of the other schools in our district.

Golden Oak is rich with parent support and involvement. Parent volunteers are visible in every classroom. There is a strong partnership between school personnel and the PTA. We share a common goal of inspiring students to be their personal best.

During our first year, we created school traditions to follow for the years to come. We value each event and feel very fortunate to be a part of the "Little School With A Big Heart".

Parental Involvement (2009-10 School Year)

This section provides information about opportunities for parents to become involved with school activities.

Parent support and involvement is a hallmark of Golden Oak School along with the Sulphur Springs Union School District. Our commitment to community involvement is demonstrated by providing a variety of access avenues. The Golden Oak PTA is our largest parent organization. The PTA plans and sponsors many school events: Fall Festival, Family Dance, Holiday Boutique, Red Ribbon Week, Casino Night, and Ice Cream Socials just to name a few. Our School Site Council provides elected parent representatives to provide input on our School Plan, School Budget and School Safety Plan. Golden Oak is rich with parent volunteers who can be found daily in the office, Library and classrooms.

II. School Safety and Facilities

School Safety Plan (2009-10)

This section provides information about the school's comprehensive safety plan.

Date School Safety Plan last reviewed: March 2010

Every student and staff member has the right to attend a safe school where he or she is free from physical or psychological harm. The School Safety Plan includes:

- -School disaster procedures
- -Guidelines to ensure a safe teaching and learning environment
- -Guidelines to promote safe travel to and from school
- -District and community resources for students and parents
- -Guidelines to promote an environment where students, parents, staff and the community communicate in a manner that is respectful to all cultural, racial, and religious backgrounds
- -Promoting positive behavior and character through school Discipline Policy based on Character Counts Program

School Facility Conditions

This section provides information about the condition of the school's grounds, buildings, and restrooms, and a description of any planned or recently completed facility improvements.

Golden Oak's construction was completed in the spring of 2008. The campus is comprised of three main buildings. The main building is single story and houses the administrative offices and the multi-purpose room. The other two buildings are two story and house classrooms, the Library, Computer Lab and Science Lab. Golden Oak has both hard and green scape. There is a full soccer field along with a running track. A separated play area is provided for our kindergarten students. Supervision is provided twenty minutes before and twenty minutes after the instructional hours.

Planned Improvements (2010-11 School Year)

With the school being built two years ago, there is not a need for any planned improvements.

III. Curriculum and Academics

Quality, Currency, and Availability of Textbooks and Instructional Materials (2010-11 School Year)

This section provides information about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school, and information about the school's use of any supplemental curriculum or non-adopted textbooks or instructional materials.

All students, including English Language Learners, receive textbooks adopted from the most recent state approved list. All textbooks are consistent with the content and cycles of the curriculum frameworks adopted by the California State Board of Education.

In the Sulphur Springs School, the adoption process begins with a committee of teachers, parents and administrators representing each school in the district. Much time is spent learning the standards and deciding upon the criteria to use when selecting the textbook. Once the criteria for selection has been decided then the publishing companies are invited to come and present their programs to the adoption committee. Members of the adoption committee spend hours perusing the books and extra materials looking for the program that will best meet the needs of all of our students. Once the committee feels comfortable with a program or two, sets of the materials are sent to each school site. At this time all teachers and parents are invited to come and preview the materials for themselves. Input from this preview is collected by the committee members and studied.

Finally the adoption committee makes a recommendation to the board based on the criteria designed prior to reviewing any programs, information from the previews and the hours spent studying and comparing the available programs. The adoption committee makes their recommendation to the Board of Trustees at a regularly scheduled board meeting. Once the board approves the textbook, materials are ordered and staff development is planned to provide all teachers with information about the new program and how to use it in their classrooms during the next school year.

It is the goal of the State Board of Education as well as the Sulphur Springs Board of Trustees that any instructional materials used in the Sulphur Springs schools meet the California Content Standards and be appropriate for use in all of our classrooms.

Standardized Testing and Reporting Program

The Standardized Testing and Reporting (STAR) Program consists of several key components, including the California Standards Tests (CSTs); the California Modified Assessment (CMA), and the California Alternate Performance Assessment (CAPA). The assessments under the STAR program show how well students are doing in relation to the state content standards. The CSTs include English-language arts (ELA) and mathematics in grades two through eleven; science in grades five, eight, and nine through eleven; and

history-social science in grades eight, and nine through eleven. The CAPA includes ELA and mathematics in grades two through eleven, and science for grades five, eight, and ten. The CAPA is given to those students with significant cognitive disabilities whose disabilities prevent them from taking either the CSTs with accommodations or modifications or the CMA with accommodations. The CMA is an alternate assessment that is based on modified achievement standards in ELA for grades three through nine, mathematics for grades three through seven and Algebra I and science in grades five, eight, and ten. The CMA is designed to assess those students whose disabilities preclude them from achieving grade-level proficiency on an assessment of the California content standards with or without accommodations. On each of these assessments, student scores are reported as performance levels. Detailed information regarding the STAR Program results for each grade and performance level, including the percent of students not tested, can be found on the CDE Standardized Testing and Reporting (STAR) Results Web site at http://star.cde.ca.gov.

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy. In no case shall any group score be reported that would deliberately or inadvertently make public the score or performance of any individual student.

California Physical Fitness Test Results (School Year 2009-10)

The California Physical Fitness Test is administered to students in grades 5, 7, and 9 only. This table displays by grade level the percent of students meeting the healthy fitness zone on all six fitness standards for the most recent testing period. Detailed information regarding this test, and comparisons of a school's test results to the district and state levels, may be found at the Physical Fitness Testing Web page at http://www.cde.ca.gov/ta/tg/pf/. Note: Scores are not shown when the number of students tested is 10 or less, either because the number of students in this category is too small for statistical accuracy, or to protect student privacy. In no case shall any group score be reported that would deliberately or inadvertently make public the score or performance of any individual student.

Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. Detailed information about the API can be found at the API Web page at http://www.cde.ca.gov/ta/ac/ap/.

API Ranks - Three-Year Comparison

This table displays the school's statewide and similar schools API ranks. The statewide API rank ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest 10 percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest 10 percent of all schools in the state. The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing 10 schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

Adequate Yearly Progress

The federal NCLB Act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- · Participation rate on the state's standards-based assessments in English-language arts (ELA) and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- · API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information about AYP, including participation rates and percent proficient results by student group, can be found at the AYP Web page http://www.cde.ca.gov/ta/ac/ay/.

AYP Overall and by Criteria (2009-10 School Year)

This table displays an indication of whether the school and the district made AYP overall and whether the school and the district met each of the AYP criteria.

Federal Intervention Program (2010-11 School Year)

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (English-language arts or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. Detailed information about PI identification can be found at the AYP Web page at http://www.cde.ca.gov/ta/ac/ay/.

Core Academic Classes Taught by No Child Left Behind Compliant Teachers (2009-10 School Year)

This table displays the percent of classes in core academic subjects taught by No Child Left Behind (NCLB) compliant and non-NCLB compliant teachers in the school, in all schools in the district, in high-poverty schools in the district, and in low-poverty schools in the district. High poverty schools are defined as those schools with student participation of approximately 75 percent or more in the free and reduced price meals program. Low poverty schools are those with student participation of approximately 25 percent or less in the free and reduced price meals program. More information on teacher qualifications required under NCLB can be found on the CDE Improving Teacher and Principal Quality Web page at http://www.cde.ca.gov/nclb/sr/tg/.

Professional Development

This section provides information on how teachers and staff are trained for instructional improvement.

The Sulphur Springs School District is firmly committed to the continual development and improvement of its teachers. To this end, the district provides professional development activities and training to enhance teacher effectiveness annually. During the 2009-2010 school year all teachers were provided with the opportunity to attend conferences, workshops, seminars, and other staff development opportunities. Each Tuesday students were released one hour early to provide teachers with site-based professional development opportunities that include site-based training, grade level collaborative planning, and independent planning. Numerous staff meetings focused on analyzing student performance of state and local assessments and how to modify instruction to better meet students' needs. Staff development topics covered all curriculum areas although there was an emphasis on reading, writing, supporting English learners, assessment, science and diversity.

Professional Development Days

This table displays information on the annual number of school days dedicated to staff development for the most recent three-year period.

Academic Counselors and Other Support Staff (2009-10 School Year)

This table displays, in units of full-time equivalents (FTE), the number of academic counselors and other support staff who are assigned to the school and the average number of students per academic counselor. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time.

Types of Services Funded (2009-10 Fiscal Year)

This section provides information about the programs and supplemental services that are available at the school and funded through either categorical or other sources.

Categorical dollars support training for teachers in working with special populations of students (English Learners, Gifted and Talented Students - GATE) and general teacher training. Funds are also allocated to the site to support intervention programs for students who are at risk academically.

Teacher and Administrative Salaries (2008-09 Fiscal Year)

This table displays district salaries for teachers, principals, and superintendents, and compares these figures to the state averages for districts of the same type and size. The table also displays teacher and administrative salaries as a percent of a district's budget, and compares these figures to the state averages for districts of the same type and size. Detailed information regarding salaries may be found on the Certificated Salaries and Benefits Web page at http://www.cde.ca.gov/ds/fd/cs/.

VI. Data and Access

DataQuest

DataQuest is an online data tool located at http://dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g. Academic Performance Index [API], Adequate Yearly Progress [AYP], test data, enrollment, graduates, dropouts, course enrollments, staffing, and data regarding English learners.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.
