Program Information
Presentation

Mrs. Gookins announced that Southwest Air Quality Management District has opened up a new grant-funding program for the electric school buses. The grant is proposed to take up the full cost of the purchase of a bus or buses with no matching funds from the District as well as the installation of the infrastructure up to \$20,000 per bus. Mrs. Gookins noted that these electric buses have a 75 mile capacity and the idea is that the buses would be used for the districts heavily used routes, therefore allowing the district to move some of the older buses to alternate routes as back up and/or retire them as need be.
